

## Air Brick Covers:

The ultimate non-permanent solution for existing clay air bricks against flooding. Air brick covers provide effective protection to Kitemark standards. Simple to store, they are the most convenient temporary solution with an easy fixing system that allows safe installation in just minutes. Available in both single and double sizes, they are the ideal short-term solution to protect all existing clay airbricks.

Tools Required To Assemble: Hammer, 7mm Masonary Bit, 4mm Parallel Pin Punch, Power Drill:

- BSI Kitemark licensed product (KM563624) passed the rigorous testing criteria of PAS 1188-1:2009
- Available in single and double sizes
- Fits any standard single and double size air bricks
- Takes minutes to install after first application
- Easy to deploy and compact to store
- Used by Local Councils and the Environment Agency
